Product Details

The beauty of our 5 panel, 9'5"wx5' high portable Free-Standing Partition is that you can easily create a functional room wherever you need it. Simply roll into place, unlock, pull open, then position as desired. Extend 22" W panels in straight lines or place at any angle for the configuration that will work best for you. Panels are mounted on full-length anodized aluminum piano hinges for easy positioning. Self-leveling, heavy-duty casters automatically adjust to uneven floors and lock to ensure stability.

Quality constructed sound-absorbing panels have a fiberglass-wrapped honeycomb core covered with tack able polyester fabric. 14-gauge steel frames fit through 26" W doorways. Panels accordion fold for compact storage. 29.25" W End Frame makes closed panels easy to maneuver; prevents tipping. Non-chip powder-coat paint protects frames and trim. Ships assembled.
