Product Details

Inspire children for a lifetime of learning from the very start-- Jonti-Craft furniture is designed for the fun and function necessary for early childhood classrooms. These side-by-side, stackable lockers provide security and privacy for kids' belongings. Each cubby has a small cut-in handle and includes different locks and keys on each unit. Magnetic closures keep the cubbies secure, even when the doors are unlocked.

These units are stackable, however added-height units must be fastened to the wall before use to prevent accidental tips and falls. Four small holes and threaded inserts are located at the top for stacking units on top of one another. Durable Baltic birch construction in a vibrant finish allows this storage unit to fit into any classroom décor while rounded edges ensure that children will also remain safe during use. Jonti-Craft's numerous safety certifications are featured on this delightful and safe locker unit.
