Product Details

Tattoo is designed with a logic that makes it elegantly simple. Each element is proportionately scaled to work together in multiple configurations. Coordinating dimensions and complementary design details ensure all elements fit spatially and aesthetically within the same footprint no matter how you rearrange them. It's something that can only be accomplished with Tattoo. Tattoo's thoughtful design is also reflected in its installation. Unlike build-intensive systems lines, most Tattoo elements require minimal or no assembly. This translates into cost and time savings – both initially and with every rearrangement. Helps with space division; arrange parallel, perpendicular or offset with other screens to delineate space.

Fully assembled.
