### Product Details

An office environment reflects a business's core values and operating style. To create a workspace that encourages teamwork and innovation, it's essential that employees leverage mobile devices to form collaborative, functional, and forward-thinking workplaces. Until now, the only solution to provide power to these devices was to run an unsightly tangle of extension cords to their desks and meeting spaces, creating cord clutter and safety hazards. The KwikBoost EdgePower is an innovative new battery-powered charging station that easily clamps onto the edges of desks, tables, and other standard office surfaces. It creates a flexible, adaptable work environment by providing a neat, convenient, 100% cord-free way to charge laptops, tablets, phones, and other mobile electronic devices.

The KwikBoost EdgePower Constant Use Bundle includes 12 Rechargeable Batteries, 6 Clamp-On Desktop Charging Units, plus a 9-Bay Base Charging Station. This system is ideal for medium-to-large rooms where users require continual access to supplemental power.

Fully Assembled

<b>Features &amp; Materials</b>	
<b>Product Features</b>	
<ul style="list-style-type: none"> <li>• A single EdgePower rechargeable power bank can charge a typical laptop up to 2 times, an average smartphone up to 14 times, and a standard Chromebook or tablet up to 4 times</li> <li>• Backlit On/Off switch activates and deactivates the AC outlets to help conserve batteries</li> <li>• Each Clamp-On Desktop Charging Unit offers a 100V-120V 90W AC outlet, USB-C PD charging port, and a USB-A charging port with Quick Charge 3.0 technology</li> <li>• If desired, each battery-powered charging station can simultaneously charge a laptop and 2 mobile devices</li> <li>• Since they move with the desks or tabletops, EdgePower portable power stations make reconfiguring a room easier by eliminating the need to unplug devices</li> <li>• The Clamp-On Desktop Power Hub Unit works with EdgePower Rechargeable Batteries, which are interchangeable to allow for extended use</li> <li>• The rechargeable power stations clamp onto desks and tabletop surfaces up to 1.5" thick</li> <li>• This portable charging station system eliminates the need for extension cords and power strips, which are inconvenient, unsightly, and a potential trip hazard</li> </ul>
