### Product Details

Reimagining the elegant style of French-Parisian accent chairs, the Ophelia Office Chair by Elle Decor is a mid-century modern chair that blends timeless charm with office ergonomics for an inspiring work companion. Crafted from beautiful Bentwood, this stylish office chair has a low-back design with a soft curved wingback and gently sloping edged seat that are well-padded and cushioned for comfort. It's better suited for casual work sessions rather than long, all-day sitting. Draped in a sophisticated tight-weave fabric, the elegance of Ivory and Gray offers a subtle contrast to the warm wood frame. The low profile and armless design also makes it readily adaptable as a lightweight and versatile task chair for varied duties throughout the day. It allows the chair to slide under most desks for convenient and easy storage, freeing up valuable space. Gliding around your workstation is easy with a chrome-polished swivel base that sits atop smooth-rolling dual castor wheels with support up to 275 lbs. A seat-side lever for height adjustment and tilt-lock lets you find your ideal position.

A muse of productivity that elevates your space, the Elle Decor Ophelia chair is a modern blend of form and function that defies traditional expectations of a typical office chair. Designed to reflect the brand's Parisian roots, Elle Decor designed products artfully merge Parisian easy-chic with touches of femininity, modernity and unexpected elements to deliver trend forward looks for range of lifestyles. Elle Decor collections live at the intersection of form and function, embracing rich color palettes and comfortable material to deliver flexible living spaces.
