Product Details

If you need a little more storage in your office but don't have the floor space for a cabinet or bookcase, consider Via's lateral file hutch. Designed to fit on Via's lateral file, it instantly adds attractive storage without cramping your work area. Concealed and open storage gives you plenty of room to hold work materials and supplies, and the sturdy hinges reduce noise when closing the doors.

The Via hutch is constructed with two tone laminate and is designed to be used with the Via lateral file. Cubbyholes in the hutch provide extra storage space for documents and supplies, and a fabric-covered bulletin board allows users to hang photos and important memos. For a complete office look, use this hutch with the Via lateral file and other members of the Via collection.

Assembly required.
