Product Details

Great for breakrooms and cafeterias, the Figio bar height table will allow employees and guests to eat lunch or simply take a break in peace and comfort. Pair it with Figio stools to create a cohesive breakroom space, or you could mix and match with café height tables and chairs to add variety.

The Figio pedestal table has a 1.25" thick high pressure laminate top that's durable and easy to clean, and an attractive T-Mold edge that won't crack or peel. The solid cast iron round base has levelling glides to prevent the table from wobbling on uneven floors. The steel column has a 3" diameter and is made of 16 gauge steel.

Assembly required.
