Product Details

Ideal for group work in schools or offices, the Pirouette guitar pick tables offers a meeting and educational surface without a "head of the table"; each person seated has equal personal space and equivalent status. With a comfortable curve and maximized leg space, this table is a great choice for higher education buildings such as library meeting rooms or non-traditional classrooms, and it offers a quick touch-down feel for businesses where employees might want an impromptu planning session or brainstorm.

The Pirouette guitar pick table is constructed with a 1.25" thick top that is comprised on a .030" thick high pressure laminate top and a .028" thick phenolic backer. The legs are made of steel tubing and a steel plate at the top for a sturdy, long-lasting connection. The casters are medium hard for equal ease of movement across soft or hard surfaces. This table can seat up to six people.

Assembly required.
