Product Details

Use your space wisely with this sliding markerboard. Three panels can be used to display information one at a time or all at once. Have your lecture points ready before class and display each one when ready. Or, be prepared for multiple meetings with notes for each on the separate panels.

This markerboard's panels are constructed of ceramic with an aluminum frame. Notes are displayed clearly on the surface and wipes away clean with no ghosting. Each panel glides out smoothly on roller tracks. The panels are magnetic and can be used to post additional handouts. A two inch tack board strip runs along the top for posting notes. Included with the map rails are two hooks so you can hang charts and more.

Assembly required. Call for custom size information. This product has been Greenguard certified to support better indoor air quality for offices, homes, schools and healthcare facilities.
