Product Details

The clean lines of this magnetic glass marker board will bring an updated feel to your conference room, training room, or office. The back is painted, offering a variety of color options from bold to neutral, that all provide vivid contrast of standard dry erase markers. The steel sheet backing makes the surface magnetic, allowing for additional paper notes or handouts to be displayed with the four included magnets. The smooth, non-porous surface will not ghost, stain, bow, shatter or crack and will show writing clearly.

This board is constructed of .75" tempered glass with 1" square corners and flat polished edges. It is frameless and borderless creating a clean, sleek appearance. It features six pre-drilled holes and is rear-mounted with 1" satin aluminum square standoff hangers that create a 1.75" space between the wall and glass making for a modern appearance. A clear acrylic accessory holder is hidden on the back of the board contributing to the clean look; it holds four markers and an eraser (which are included).

100% recyclable and made from recycled glass, sand and steel. Made in the USA.
