Product Details

Give your outdoor space a fresh look when you add this bench. This bench is constructed from recycled plastic milk jugs that would have otherwise ended up in a landfill.

Eco-friendly and economic, this 48"W outdoor bench is made of 100% recycled plastic held together with stainless steel fasteners. Various color options allow you to make this bench appear to be a wood bench with a cast iron frame. Resistant to rotting and splintering, this bench will give you years of maintenance free use far beyond a traditional wood bench.

Assembly required.
