Product Details

Everyone has access with the Polly Tuff Easy Access Universal Access Picnic Table. Easily seats six people with room for a wheelchair, all with a contemporary, stylish design. This picnic table is made of 100% recycled plastic lumber that is easy to assemble and requires no maintenance. Recycled plastic is not susceptible to rotting or splintering, and will not need recoating or painting like you would have to treat wooden products.

Durability is enhanced by the use of stainless steel lag screws. No need to worry about insects or weather, either! And clean-up is a snap! More than 2,000 recycled milk jugs were saved from landfills to make this table, and its purchase grants LEED credits to your facility.

Ships partially assembled. The one piece molded table frame features a wide flange for attaching the top and seats, and well written instructions make assembly a breeze.
